Osaka Lever on Round Rose 20771 in Signature Brass.
Photography: Mindi Cooke, Design: Zephyr + Stone, Project: Coral House, Brisbane, QLD.

Finishes

Iver’s distinct range of finishes are created using diverse methods, from delicate hand-aging to leading-edge plating techniques, resulting in aesthetically beautiful and durable finishes for a wide range of interior styles. Explore Iver’s finish options and find the perfect complementary palette for your home.

Suitable for most internal and external applications.

Matt Black

Tone: Deep and intense
Finish: Flat monochrome finish
The always on-trend Matt Black is both highly durable and a timeless option for any space or style of home.

Polished Brass*

Tone: Warm gold
Finish: Bright reflective shine
This Polished Brass finish has a distinctive jewel-like glow. Over time this finish develops beautiful variations in its colour as the polished appearance ages, giving it a distinctly timeless look.

Brushed Brass**

Tone: Warm gold
Finish: Satin brushed
Brushed Brass exhibits bright, warm tones, adding contemporary flair to our Polished Brass finish. Effortlessly paired with colourful palettes or comfortable as a statement piece, the fine brushed detailing and vibrant gold hues make this finish a must-have.

Polished Chrome

Tone: Cool silver
Finish: Bright reflective shine
The pristine shine of Polished Chrome evokes a sense of luxury, adding refined elegance to any space. This finish can be used across a range of design styles, standing the test of time in both contemporary and classically styled homes.

Brushed Chrome

Tone: Cool silvery blue
Finish: Satin brushed
Sleek and understated, the modern Brushed Chrome features subtle detailing and exhibits cool tones, a perfect match for all stainless-steel fittings and appliances.

Signature Brass

Tone: Deep bronze tones
Finish: Distinctively hand-aged
The unique Signature Brass finish offers beautifully rich colour, its dark undertones and golden highlights adding depth to any space.

Polished Nickel*

Tone: Warm silver
Finish: Bright reflective shine
The Polished Nickel finish is a warmer alternative to the cooler Polished Chrome, softening its appearance while maintaining a sense of luxuriousness.

Satin Nickel

Tone: Warm silver
Finish: Gentle sheen
With its contemporary aesthetic, Satin Nickel is the perfect finish for an understated yet sophisticated look. Silver hues are balanced with the warmth of nickel to make this finish easily adaptable to any space.

Distressed Nickel*

Tone: Deep silver with mottled pewter tones
Finish: Rustic and textured
Distinct and bold, Distressed Nickel has a beautiful worn appearance. Similar to traditional English pewter, this character-filled finish will add a rustic touch to your project.

* Selected styles

**Sensitive Finish: Brass is renowned for its beauty, but is subject to some natural discolouration over time. The unique texture of our Brushed Brass will render it more susceptible to this natural aging process. Whilst being coated in a protective lacquer designed to increase the time before the aging process commences, exposure to harsh chemicals and salt spray will accelerate the breakdown of the lacquer. This can change the appearance of your Brushed Brass hardware prematurely. General care when handling your door furniture is recommended. Cleaning with a soft damp cloth will help maintain the integrity of the finish.

Product Certifications

Cycle Tested
Door levers on rose successfully tested to meet the highest durability rating (D8, 500,000 cycles) under the Australian Standard (AS4145.2: 2008).

Fire Rated*
Door levers, knobs and pull handles are fire rated to 2 hours to meet the requirements of the Australian Standard (AS1530.4:2014).
*Accessories are not fire rated

Solid Forged Brass
All pieces are forged from high quality, durable solid brass.

Technical Information

Available Backplates

The distance from the spindle hole to the bottom screw hole is 136.5mm.
The overall screw hole Centre-to-Centre (CTC) is 205mm for all long backplates.
Entrance and Privacy punch outs are 85mm CTC.

Introducing Iver Kits

Kits include all components required to install on your door. Available with most Iver door lever, knob, pull handle and sliding door pull styles in your selected rose or backplate and finish.

Selecting Your Door Furniture

Simplify the selection process by choosing a Passage, Privacy or Entrance Kit to suit your project.

- Passage**
For internal non-locking doors.
- Privacy**
For internal doors where privacy is needed.
- Entrance**
For external doors that need high security locks.

Kits include all components required to install on your door.

See page 72 for specific Iver kit options and what's included in the box, or scan the QR code.

Baltimore Return Lever on Rectangular Backplate 10848 in Signature Brass.

Accessibility

Explore Iver's range of accessibility hardware. Available in a selection of matching finishes, accessibility hardware is perfect for commercial projects and high-traffic areas. All hardware is DDA compliant and levers are also successfully fire rated.

All accessibility levers are also fire rated to 2 hours to meet the requirements of the Australian Standard (AS1530.4:2014).

Accessibility

All Baltimore and Oslo Return Levers and Accessibility Privacy Turns are DDA compliant.
Return levers with inbuilt privacy and backplate privacy are not DDA compliant.
