**Sheffield Blades is a fourth generation Australian owned and operated family company.** We are dedicated to the success of your business through superior quality, service and integrity. Sheffield Blades provides complete solutions in cutting tools through its extensive range of Sterling knives and blades, and in power tool accessories through its ever growing Alpha range.

## About Sheffield

**With over 40 years of experience we can assure the highest level of expertise.** By means of extensive ongoing consultation with industry specialists and our valued clients, *we have developed a range of solutions* to more than satisfy the most demanding requirements. Improvements through innovation and implementation of efficiencies affected by

constantly upgrading systems and staff training will continue to drive us forward.

Backed by a large and ever expanding stock level in our centrally located warehouse, our highly trained warehouse team, in conjunction with an extremely efficient distribution network, ensure an awesome level of service to clients throughout Australia.

Our *exclusive* brands **Sterling** and **Alpha** are sold by industrial distributors in Australia, and with over 2,000 outlets throughout the country there is a stockist near to you.

## Customer satisfaction is our top priority.

When you contact our Sales or Service Team you will speak with *trained and dedicated staff members* that genuinely care about providing you with the product or service that is best for you.

“ **Sheffield Blades** provides complete solutions in cutting tools through its extensive range of Sterling knives and blades, and in power tool accessories through its ever growing Alpha range.

”

# Service

# SHEFFIELD BLADES

**Sheffield Blades Head Office and Warehouse, located in Newcastle, is excellently situated to provide overnight service for orders to all major cities on the Eastern seaboard of Australia.**

Overnight service to all other areas is available on request.

Orders placed before 2pm EST are normally dispatched the same day with a virtually 100% guaranteed accuracy level. By use of our *electronic dispatch system* the quickest method of delivery for that specific consignment is selected. For your peace of mind a *confirmation of dispatch* is sent to you by *email* providing you with full tracking capability for your consignment.

*The team at Sheffield Blades strive to exceed expectations in offering helpful service and advice to businesses throughout Australia along with practical solutions to solve any problems.*

- Centre handle position suits right and left hand users
- Centre position allows both sides of the blade to be used without reversing the handle

*Sterling*<sup>®</sup>

SLIDELOCK TROWELS

Sterling

“Knock it in - knock it out”

## BRILLIANT!

Fast and easy blade changes. Handle attaches to the blade by sliding it along a full length spine which provides a strong secure handle attachment to the blade. The SLIDELOCK system allows the same handle to be used with different notch size blades.

## CHOICE!

SLIDELOCK Trowel System features either a large or small ergonomic soft grip handle fully interchangeable with 8 different blade styles. This provides the most universal trowel selection available for the flooring market.

## DURABLE!

Centrally located handle is easier for left handed users and reduces uneven wear on the blade notching. Both sides of the blade can be used without removing the handle. Simply turn it around. All SLIDELOCK notched blades are the popular parallelogram shape and are manufactured from heavy gauge high quality steel and are double notched for long life.
